

IRVING ANGULO

dev.2023@irvingangulo.com • [linkedin.com/in/irvingangulo](https://www.linkedin.com/in/irvingangulo)

SKILLS

Languages: JavaScript, TypeScript, Java, HTML, CSS, Python, Ruby

Frontend: React.js, Redux, Next.js, SemanticUI, Bootstrap, SCSS, EJS, Jest, React Testing

Backend: Node.js, Express.js, Sequelize, Mongoose, Passport, Supertest

Database Systems: Postgres, MongoDB

Cloud Services: AWS (Lambda, S3, Queues, Step Func., SQS), Azure functions, Snowflake, Netlify

Dev Tools: Webpack, Babel, Serverless

Certifications: Braze, Facebook, Segment Analytics, Klaviyo, Amplitude

Soft Skills: Communication, Critical Thinking, Software Planning and Execution, Mentoring

Keywords: MERN, Crud, RESTful, Agile, Stripe, CDP

PROFESSIONAL EXPERIENCE

Senior Software Developer / Ragnarok Inc.

February 2021 - Present

Skills: React, Redux, Gatsby, AWS, Azure, Node, JavaScript, Postgres Segment, Braze, Klaviyo

- Executed 10+ data tracking plans with frontend technologies like Shopify, React/Redux, and Wordpress to facilitate analysis resulting in more focused segmentation for clients.
- Integrated 10+ backend data analytics plans using AWS, Node, Lambda, Azure, Shopify webhooks.
- Led discussions with solutions architects, developers, and clients to clarify data tracking techniques, providing clear project direction.
- Identified optimal technologies for client projects by assessing their unique needs and measuring the advantages of the available options.

Full Stack Web Developer / Roof Rally

December 2019 - November 2020

Skills: React, Redux, Next, Express, Heroku, Node, TypeScript, React Native, Postgres

- Designed and incorporated more than 10 full stack features for the web application using React, Redux, Semantic UI, Express, and Sequelize, resulting in improved user experience.
- Increased app functionality by building 3+ features for mobile app using React Native.
- Designed 5+ robust front-end and back-end APIs to improve database-client data flow.
- Integrated Stripe Webhooks for automated subscription creation on the database.

Web Developer / eXalt Solutions

August 2018 - January 2020

Skills: AWS Lambda, Athena, Node, Python, Vanilla JS, Bootstrap, CSS

- Developed a Node AWS Lambda API to retrieve data through Athena based on user-specified criteria, store the data in S3, and serve it to the client, resulting in improved performance.
- Wrote 5+ scripts using openpyxl (Python) to format scraped data and add Excel formulas.

Teaching Assistant / Coding Boot Camp Harvard Extension

Sept 2019 - Nov 2019

Skills: React, JavaScript, HTML, Node, Express, Git, D3

- Mentored students in HTML, CSS, JS, React, Node, Express, and Git by providing guidance, clarifications, and code improvements for solidifying and expanding their knowledge.

EDUCATION

CodeSquad, Web Development Boot Camp, Boston, MA

June 2018

Master of Music in Music Technology, Georgia Southern University

May 2016

Bachelor of Music in Music Composition, Western Michigan University,

April 2014
